

# Bleach, Nothing Can Be Explained

Lost on the way, no one to blame, no one to say,  
nothing to do with the way everything's changed  
So I feel a little like, a child who's lost, a little like,  
(everything's changed) a lot, I didn't like all of the pain,  
I'm confused, a lot of it, is hard to take, and cause of it,  
everything's changed I thought I'd make it through the pain  
everything's changed

Given the change I would happily dance on the grave of the one  
who shows no remorse

So I feel a little like, a child who's lost, a little like,  
(everything's changed) a lot, I didn't like all of the pain,  
I'm confused, a lot of it, is hard to take, and cause of it,  
everything's changed I thought I'd make it through the pain  
everything's changed

nothing is plain

nothing can be explained, nothing

Given the change I would happily laugh,

and be free to express what I feel

Given the change I could hold up my head and smile again
