

# Bleed The Sky, Paradigm In Entropy

Forgiveness is for the weak  
Throw down your broken cross  
Desire irrelevance  
Pursuit of faith is lost  
Count your blessings  
For they are too few  
Immortal fallen child  
It's time to choose  
Look in my eyes  
I'm waiting for your  
Paradigm in Entropy  
Contortion of innocence  
There's nothing you can do  
Before the rain of Heaven's pain  
Destroying all of you  
Drown your blessings  
For they are too few  
Immortal fallen child  
It's time to choose  
Look in my eyes  
I'm waiting for your  
Paradigm in Entropy  
Fall down, you played us with your life  
This chance is something to decide  
Look in my eyes  
I'm waiting for your  
Paradigm in Entropy  
This revolution
