

Bless The Fall, Wait For Tomarrow

They said that i can't change without you,
That i can't change without you
That i can't change without you
Those night i cant sleep im stuck here, lost in your dreams
Its like why can't i get much better,
So swipe it and take it away
And never lie to me
The only reason my eyes close is so they open with you by my side
Its like why cant i get much better,
So swipe it and take it away
And never lie to me
I wont wait for tomorow
So open your eyes my darling today?s a new day
