

# Blessid Union of Souls, Heaven

Well it's all right to feel like time is running down  
And make amends with those who once have let you down  
To cry for children who have not yet had their chance  
To pray for foes in hopes that one day we'll join hands  
And live in Heaven

Heaven forever Heaven forever  
Heaven forever Heaven forever

Love's waiting past the stars  
Tranquility is not that far  
Believe in Him he believes in you  
And I'll see you in Heaven

I seen a messenger who was preaching on the street  
He had nothing but the blisters on his feet  
And all those big shots with their Mercedes' and yachts  
There'll be a time fir the to let go what they got  
And I'll see them in Heaven (...maybe)

Heaven forever Heaven forever  
Heaven forever Heaven forever

Do you feel it? Do you see?  
There's no admission, Heaven's free  
This is ther world which we decided  
Without the love we're all divided

Love's waiting in the sky  
Tears for Him will puriufy  
The answer is in His eyes  
And He'll see you in Heaven  
Do you live for Heaven  
Would you die for Heaven  
Then I'll see you in Heaven
