

# Blessthefall, Could Tell A Love

Well here go  
My big plans  
To build up this fortress into the clouds  
It's made up of my love  
And my heart and my blood  
We'll make it out

Can I stand with the weight of the world? [x3]  
Here I stand with the weight of the world

And this is all I've got  
I'll make it now or not  
It's made up of my love  
I've fought so hard to fade  
Our lives are meant to make  
It's made up of my love  
Made up of my love  
That's how it goes, it goes

Well here go  
My big plans  
To build up this fortress into the clouds  
It's made up of my love  
And my heart and my blood  
We'll make it out

I won't fall down  
My heart still pounds  
I'm breathing now  
I won't fall down  
[x4]

Well here go  
My big plans  
To build up this fortress into the clouds  
It's made up of my love  
And my blood and my heart  
We'll make it out  
We'll make it out  
We'll make it out  
We'll make it out  
We'll make it out

We'll make it, our love out  
You're not the only one
