

Blind Iris, Hard Track

When you were born
You were free to choose
You were given a choice
You could win or lose
From the time you could talk
You could yell or listen
Was it you voice or someone else's vision?
Do you believe what's on T.V.
A computer screen
An A.C.T.?
Does who you know
Determine who'll you'll be? Would a million dollars
Set you free?
I guess the fact is
Everything takes practice
Have you been hitting it hard
Or have you been slack and inactive?
You see it
You need it
It grows when you feed it
The fields there to harvest
Are you ready to weed it?

Time can not beat me
The game can not defeat me

Life is a game
You've got to play hard
And keep your eye open
For the wild card
Take it as it comes
With the rising sun
And when you see the gap

It's a dead on run
Cause it's the hard track
Look at the facts
It's got competitive edge
Like the blade of an axe
It's smashing, crashing
In full force action
And when the whistle blows
It's a chain reaction

Time can not beat me
The game can not defeat me

We all are teammates
We all are friends
And I'll stand beside you
From start till the end
There are no excuses
No easy way out
Stepping up for a brothers
What it's all about
Cause it's the hard track
Look at the facts
It's got competitive edge
Like the blade of an axe
It's smashing, crashing
In full force action
And when the whistle blows
It's a chain reaction

Time can not beat me
The game can not defeat me
