

Blind Melon, What You Lost

True Love has gone away, true love's gone away
True Love has gone away, true love's gone away
Ooh, I really can't remember what you say
it don't matter anyway
and I really can't remember how it used to be
don't mean that much to me
and now (?) is killing me
But you know what you lost
and I wanted you and that's what's killing me *
But you know what you lost
What you lost
What you lost
(?)
talk with a cronic liar, cronic liar (... ? ...)
what's with that?
But you know who's killing me

But you know what you lost
and I wanted you and that's what's killing me
What you lost
What you lost
What you lost
What you lost

See my baby come to me
See my baby change
See my baby dressed in black
See my baby
True Love has gone away, true love's gone away
