

Blinded Colony, My Halo

This very day you'll take a last breathe and leave me
I've scrubbed myself 'til bleed
I cannot make the tiniest mistake, 'cos you'll stab me
You turn lambs to murderers

What? Who shut the light?
My halo used to shine all bright! But now...
I've dug out myself in search of worms way deep inside
What now?

Clean, I can never be
Perfection
I hunt but will never catch
Hypochondria, I make a monster of myself because of forbidden fruit

What? Who shut the light?
My halo used to shine all bright! But now...
I've dug out myself in search of worms way deep inside
What now?

My halo used to shine
