

# Blindspott, Fall Down

You despise the things I know  
And you think I don't, but I know  
I know, I know

Just step back, motherfucker, put that shit away (fall down)  
No one gives a fuck about what you gonna say (fall down)  
Hold the truth, not to make it right (fall down)  
Bullshit, suffocate

I wish I was perfect just like you  
Can I fuck things up the way you always do  
Like you, like you

Just step back, motherfucker, put that shit away (fall down)  
No one gives a fuck about what you gonna say (fall down)  
Hold the truth, not to make it right (fall down)  
Bullshit, suffocate

The pleasure's all mine  
And we will fall, the pleasure's all mine now

(Fall down)

The pleasure's all mine  
And we will fall, the pleasure's all mine

Just step back motherfucker, put that shit away (like you)(fall down)  
No one gives a fuck about what you gonna say (fall down)(like you)  
Hold the truth, not to make it right (fall down)  
Bullshit, suffocate

(Like you...)
