

# Blindspott, Room To Breathe

Does it upset you, to see where I lay  
And tell me does it make you sad, cos on the weak you will prey  
And tell me does it bend you up, fuck your mind  
And leave you feeling unstable again

Give me room to breathe  
Just a little room to breathe

Would it make you sad if I  
Sat back and laughed as I made you sad  
As I made you choke, would it make you wanna die  
Would it make it right if I  
Sat back and laughed as I made you sad  
As I made you choke, would it make you wanna die

And there's no excuse for the games that you play  
And tell me why there's no escape from the things that you say  
And tell me does it steady you inside, fuck your mind  
And leave you feeling violated again

Give me room to breathe  
Just a little room to breathe (room to breathe)

Would it make you sad if I  
Sat back and laughed as I made you sad  
As I made you choke, would it make you wanna die  
Would it make it right if I  
Sat back and laughed as I made you sad  
As I made you choke, would it make you wanna die

Does it make you, make you sad...

Does it make you, make you sad  
Does it make you sad

Would it make you sad if I  
Sat back and laughed as I made you sad  
As I made you choke, would it make you wanna die  
Would it make it right if I  
Sat back and laughed as I made you sad  
As I made you choke, would it make you wanna die
