

Blink The Star, On This Earth

On this earth I will stand on rocks and sand
Waiting for sympathy and day's end
To winter, spring and summer
I swear there is no other you
This is for you
One life fades to the next
It's with me you're left
Tired eyes, please believe

That I'm with you
To shiela, surely altered
Your train wreck's racing for we two
Is this what we do?
On this, our night, there will be
Secrets left unknown
Can you be strong?
