

Blinker The Star, Earman

Hopscotch after dark
Firebugs in the park
After school doesn't cut it anymore
Forgot you got to see who's
Standing right behind you
Gonna have to make run run run run run run for it!
10 o'clock
Does the walk
Switchblade all he needs to get things done
Finding little children
Myself included
Snatch away your ear, and put it in a jar
You're never safe
As long as you're awake
Don't ever think that you can fake it
If you're up at 10 o'clock
You won't hear him talk
Because he's deaf he only mumbles
He's your mother's friend
And your daddy's friend
Why'd you think they'd let him do it?
What happened years ago
He can't let go
Make examples out of all the little devils of the world
