

Bliss 66, Sooner Or Later

It's not enough to be afraid
Of the mess I made when the colors fade
So pick me up before I hit the ground

It's not enough to realize
When you close your eyes and it's no surprise
So shut me up before I make a sound

I know you'll always be there when I come down
And I even see your face when you're not around
Yeah, I know you'll always be there when I come down
Down, down, down, down

Chorus:
Sooner or later
I think you're gonna find out
That we should be together now
Sooner or later
I know we're gonna find out
It might as well be right now
Sooner or later
Sooner or later

It's not enough to play the game
Gotta take the blame for the mess I made
So pick me up before you bring me down

It's not enough to compromise
If you change your mind and you fall behind
So shut me up before you shut me out

I know you'll always be there when I come down
And I even see your face when you're not around
I know you'll always be there when I come down
Down, down, down, down

Chorus

I think it's time you understand
I'm just a man, that's all I am
Before our situation's out of hand
I think you need to comprehend
It's got to end so let's pretend
I always give you everything I can

It's not enough to say ok
If the love you take is the heart you break
Don't shut me off, don't throw it all away

Chorus

Sooner or later you'll be mine, you'll be
Sooner or later you'll be mine, you'll be
Sooner or later you'll be mine, you'll be mine
Sooner or later
Sooner or later you'll be mine...
