

Bloc Party, Atonement

It will be hard, my love
It will be hard but it can be done
My kisses will put out
The forest fire I started
I will not let, I will not let
You get further from me
You must fight for me

Oh, it was a funny feeling
To be wanted
So, it was a funny feeling
We only ever notice
We only ever notice
When it seems like all is lost
You know it meant nothing to you

Remember the good times
Remember me sleeping by your side
Remember the feeling
That you were safe in my arms
I still see sons in you
My sons of sons in your eyes
This love's not over
This love's not over

Oh, it was a funny feeling

And we can make a raft from all the dead trees
And set sail for better times
To a time when this love was not poisoned
I was kind and I was kind

And we can make a raft

(Atonement)

Oh, it was a funny feeling

(This is my atonement)

It will be hard, my love
It will be hard but it can be done
