

# Bloc Party, Price Of Gasoline

I've been driving, a mid-sized car  
Never hurt anyone  
Is that a fact?  
Is that a fact?  
Is that a fact?  
Is that a fact?

The price of gas keeps on rising  
Nothing comes for free  
Make like a stone, make like a plant  
Make like a stone, make like a plant  
I can tell you, how this ends

We're gonna win this  
We're gonna win this  
We're gonna win this

With spades and truncheons, guns and trowels  
That is how the war will be won  
Just swat the fly  
Just swat the fly  
Just swat the fly  
Just swat the fly

Taking care of cars and bodies  
Nothing ever comes for free  
The ghosts are here  
The ghosts are here  
Red white and blue  
Red white and blue

I can tell you how this ends  
We're going win this  
We're gonna win this  
We're gonna win this  
We're gonna win

We're going win this  
We're going win this  
We're going win this  
We're gonna win.
