

Blondie, Attack Of The Giant Ants

Giant ants from space
Snuff the human race
Then they eat your face
never leave a trace
La, la, la, la, la, la, la, la, la, la, la
They shoot fire all around
Tokyo burns down
Everybody drowns
The moon falls on the ground
La, la, la, la, la, la, la, la, la, la, la
They can't be stopped at all
The buildings start to fall
Soldiers shoot all day

and then they run away
La, la, la, la, la, la, la, la, la, la, la
The world is holocaust
Everything is lost
Mankind is destroyed
Sprinkled in the void
La, la, la, la, la, la, la, la, la, la, la
Giant ants from space
waste the human race
Then they eat your face
never leave a trace
La, la, la, la, la, la, la, la, la, la, la
