

# Blood Red Throne, Mephitication

Demiurge, I ate your first flesh  
And in rapture I descended upon you  
Consumed all self-composed illusions  
Infesting what's left for all to breathe  
Decadent human birth  
Frantic mutilation  
Injected with needles  
Converted to vile  
Flesh decomposed with infected bile  
Devoured from inside  
Mouth filled with froth  
Face pealed in agony when spasms contort  
Soaked in urine  
Immense seizure crawl  
Alive and rotting  
But still able to breath  
Humanoid virus  
Hangar gates open  
Transported inside  
Gliding in pain among tanks that surrounds you  
Lowered into the body slide  
Skull and chest punctured with metallic probes  
Consciousness preserved in chemical solution  
Un-dead device for mephitic deeds  
Embalmed atrocity  
Contamination seeds  
Demiurge, I ate your first flesh  
And in rapture I descended upon you  
Consumed all self-composed illusions  
Infesting what's left for all to breathe  
Devoured from inside  
Mouth filled with froth  
Face pealed in agony when spasms contort
