

# Bloodbath, Soul Evisceration

Surgical exposure  
Embalmed in blood and unaware  
Your heart collapsing in the wake  
Your eyes are frozen in a stare

Imprisonment in flesh  
Deadened body holding cell  
Neurobiosis cuts the way on through  
Rotting soul condemned to Hell

I cut away  
Sculpture death  
Carve in your thoughts  
Bloodspray  
Parasite breath  
Breed is the cause  
Violate  
Desecrate  
Sever the spine  
I dissect  
So perfect  
Muscles that bind

(CHORUS)  
Soul evisceration

Nauseating pressure  
Internal landscapes overflow  
Bleeding forth the secrets of your soul  
The human body deathrow

Installment of distress  
Revolted death is now complete  
Your suffering is taking human form  
My own disease is named deceit
