## Bloodbath, Soul Evisceration

Surgical exposure Embalmed in blood and unaware Your heart collapsing in the wake Your eyes are frozen in a stare

Imprisonment in flesh Deadened body holding cell Neurobiosis cuts the way on through Rotting soul condemned to Hell

I cut away
Sculpture death
Carve in your thoughts
Bloodspray
Parasite breath
Breed is the cause
Violate
Desecrate
Sever the spine
I dissect
So perfect
Muscles that bind

(CHORUS) Soul evisceration

Nauseating pressure Internal landscapes overflow Bleeding forth the secrets of your soul The human body deathrow

Installment of distress Revolting death is now complete Your suffering is taking human form My own disease is named deceit
