

# Bloodgood, All Stand Together

Nations will stand  
Nations will fall  
God will require  
Accounts from them all

Arabian Oil  
Mid-Eastern soil  
Blood in the sand  
A madman demands

But we'll all stand  
We'll all stand together  
If we all stand  
We'll all stand together  
Yes we'll all stand  
We'll all stand together  
As our hands reach towards the sky

People unite  
With one common cause  
As evil delights  
In breaking God's laws

Dividing the thoughts  
And hearts of all men  
Wicked, relentless  
When will it end?

When we all stand  
We all stand together  
If we all stand  
We'll all stand together  
Yes we'll all stand  
We'll all stand together  
As our hands reach towards the sky

Side by side  
Hand in hand  
All you people  
Take command

And raise your voices  
To claim the land  
That God has given you
