

Bloodsucking Zombies From Outer Space, Die Earthling Die

Die scum your hateful gaze
Means nothing for me 'cause I keep you dazed
The pain you feel is like orgasm for me
Treat your dignity into dirt
This deepest feeling does it hurt
Suffering restarts my creativity
Feel the blade, baby when it comes
The time slows down its run

Die earthling die - It's too late for you
Die earthling die - It's too late for you
Die die die die - It's too late for you
Die earthling die

Your eyes fade, so shocked
Your body numbs, your wimpers block
The bloody human life is so contemptuous
Give it up, don't weep
I'm hungry and you're what I need
The large eats the little, that's the way it is
My demon nature so creedy again
Your blood taste like champain

Die earthling die - It's too late for you
Die earthling die - It's too late for you
Die die die die - It's too late for you
Die earthling die

Scream you goddamn bastard, let the world hear that you've gonna die

Die earthling die - It's too late for you
Die earthling die - It's too late for you
Die die die die - It's too late for you
Die earthling die
