

Bloody Mess, What you chose

Searchin' for an answer
Is just what might be the cure
Not finding
The vision's so obscured

Searchin' for a meaning
May bring meaning to your life
So many tried
While others stood aside

CHORUS

Is what you showed me
What I must believe
What you chose for me
Is it how

Self-awareness makes you question
Every choice made
When you behaved
The way that they have paved

Feeling like you lost control
Is closer to the truth
What do you choose?
When choice is what you lose
