Bloody Mess, What you chose

Searchin' for an answer Is just what might be the cure Not finding The vision's so obscured

Searchin' for a meaning May bring meaning to your life So many tried While others stood aside

CHORUS

Is what you showed me What I must believe What you chose for me Is it how

Self-awareness makes you question Every choice made When you behaved The way that they have paved

Feeling like you lost control Is closer to the truth What do you choose? When choice is what you lose
