

Bloom 06, When The Party's Over

""Bloom 06 - When The Party's Over""

When the party's over
and the girls are older
will you still be hunting for somebody new ?
will you still be dressing like you do ?

When the party's over
and your friends are fathers
will you still be sleeping till the afternoon ?
will your racing car be like you knew ?

So when the party's over
tell me will you accept this
or will you
will you play the part
will you leave the party with a broken heart
So when the party's over
tell me will you accept this
or will you
will you play the part
will you leave the party with a broken heart

When the party's over
and your son is older
Will you still be wasting every dollar bill ?
will you still be drinking for a thrill ?

When the party's over
and you will be older
When the Music and lights are gonna stop for you
what is left depends on what you'll do

So when the party's over
tell me will you accept this
or will you
will you play the part
will you leave the party with a broken heart
So when the party's over
tell me will you accept this
or will you
will you play the part
will you leave the party with a broken heart
