

Blue System, All What I Need

All I need, all I need is you
All I need, all I need is you

Oh, baby, babe I swear you
I'm not a one night love affair
Oh, little girl, so when you're lonely
Oh, come on call me, I'll be there
I'm not a crazy fool, I call it deep emotion
I'm not a foolish guy, I try to make it true

All what I need, is your heart
Every day, every night, every part
All I need, all I need is you
All what I need is your heart
Everywhere, every step, every part
All I need, all I need is you

All I need, all I need, all I need is you

Oh baby, babe, believe me
It's just a photograph I see
Oh, some day we'll be together
It's not a one night fantasy

I'm not a crazy fool, to leave you when you're lonely
I'm not a foolish guy, to leave you all alone
