

Blue System, Body Heat

Feel my body heat
Come on feel my love
Baby, what you need, is baby what you care
Feel my body heat
I hear your laughter
Come on hear the beat
Oh, I can drive you mad

You, you, you
Don't look back, babe, come to me
I'm a dreamer - can't you see
Never give you up in the night of the city
You, you, you
Heaven knows where your heaven is
You're the first, baby, on my list
I'll never give you up - never give you up
Come on, try my heart - love will lift you up

You, you, you
Let it out, let it all hang out
Cry for love, babe

I never give you up - in the night of the city
You, you, you
Used to drag my heart around
I'm a man - I'm not your clown
I never give you up - never give you up
Come on try my heart - never give you up
