

# Blue System, Dressed In Blue

You're so good - you're so bad  
You're my childhood dream  
But I know you'll go  
Baby, oh it seems  
You can win, if you try not to play a game  
Play your cards  
Oh, my love and I play again

I wanna give love - I wanna share love with you  
She's gonna dressed in blue  
I wanna give love - I wanna share love with you  
See what a love can do  
Oh, I have found the fun on the telephone  
The only trouble is : I need a kiss

She got sex - she could bring - she got everything  
But I know it's a love on broken wings  
Oh, tell me all your dreams and I tell you mine  
I don't care if the sun or the moon don't shine
