

Blue System, Dresses In Blue

You're so good - you're so bad
You're my childhood dream
But I know you'll go
Baby, oh it seems
You can win, if you try not to play a game
Play your cards
Oh, my love and I play again
I wanna give love - I wanna share love with you
She's gonna dressed in blue
I wanna give love - I wanna share love with you
See what a love can do
Oh, I have found the fun on the telephone
The only trouble is: I need a kiss
She got sex - she could bring - she got everything
But I know it's a love on broken wings
Oh, tell me all your dreams and I tell you mine
I don't care if the sun or the moon don't shine
