Blue System, I Wanna Smile

I wanna smile, in your arms you drive me wild
Oh, please smile to me, be my baby
I wanna smile, in your dreams I stay a while
I wanna be your little guy, by my baby

Come on and feel it, I mean it and everytime I've seen it
I never had the feeling, oh you hide it and I dream it
I miss it, I kiss it and everytime you bliss it
Baby I prove your love
Come on and groove it and move it and everytime you do it
I've never seen you smiling, when you sad, oh I will blew it
I mean it, I've seen it and everytime I dream it
Baby I prove my love

Oh my baby, it's my love you see
Oh my baby, come on and smile to me

Only with your love, I'll make it true love
Only forever, we'll stay together

Come on, don't hide it, beside it and everytime you light it
I always have the motion, oh I love it and I guide it
I take it, don't fake it and everytime you make it
Baby, prove my love

Come on and say it, I pray it, your smile will gonna make it
I always have the feeling that your smile will gonna kick it
I mean it, I've seen it and everytime I dream it
Baby, prove my love

Oh my baby, it's my love you see
Oh my baby, come and on smile to me
