

Blue System, It's More

How many times you said : oh it's the end
How many times you said : you're my best friend
Here I'm standing now - alone again
Where is this paradise - you pretend
Oh, it's not over, I can't understand
Baby, let us start again

It's more - more than my heart is burning
Baby, baby, it's you
It's more - more than my life is turning
Oh, baby, what can I do

Oh, you can see it now
I cry, it's true
It's not over girl - for me and you
You can't ignore it now - the pain I feel
You lost the feelings, girl
My love is real
Oh, it's not over, forgive what I say

I love you forever, more and more each day
