

Blur, Come Together

I don't understand
You're walking over me
All over me, to you
Well you must be mad
And you know you are
You should have known
I'd do anything for you

[chorus]
So why, why
Can't we come together? why

Inside my head
It's all been taken out
By you and do I care
Well you know I do
You should have known
I'd do anything for you

[repeat chorus]

Now it's all been said
And you know it all
Then you should have known
I'd do anything for you
For you

[repeat chorus]
