## Blur, Dizzy

I pump poison Into my body To forget That I am me It feels good Wonderful I forget I have feelings at all You're dizzy I floated up Fifteen miles high Stuck my head through All the holes in our sky I looked out across the universe And thought of you You're dizzy And I am dizzy too I became lunatic With rolling eyes Squirming on the ground Frozen in ice Called to my mother Said " Mother, please Feed me before the sky Falls in on me" You're dizzy
