

Bo Pepper, Love Or Die!

Doesn't matter what they say
I'm on the right line
When I think about it
I was right the whole time

No one panic
So dramatic on your radio
Strike the first blow
Tell them what they wanna know

In the city
Cars are crashing on the motorway
Make a U-turn
Gonna go the other way
Don't know if I'm pretending
Will it give you your hollywood ending?

If I don't think you're good enough
Then I won't stay
And you won't break me
So I'm not gonna wait
Love or die!
Love or die!

Lesson one for the teacher and the idiot
If it's easy on the eye you get sick of it
Carries on, carries on like a ticker tape
Better watch your back they get you when they hesitate

If I don't think you're good enough
Then I won't stay
And you won't break me
So I'm not gonna wait
Love or die!
Love or die!

Bad dreams of getting caught
You're a sign (?) and you're so sure
Is it all just white noise?

If I don't think you're good enough
Then I won't stay
And you won't break me
So I'm not gonna wait
Love or die!
Love or die!

Love or die!
