

# Bob Schneider, The Long Black Road

There's a big black heart  
In a big black box  
In a big black box  
At the bottom of the big black sea

And there's a long black road  
Ahead of me

There's black gold  
In these black veins  
And I wear a black smile  
That's misery stained

And there's a long black road  
Ahead of me

And there's a black grin on a black moon  
In a black starless sky  
You put a black magic spell on me honey  
That got me so high

And there's a long black road  
Ahead of me
