

Bobby Bare, Blue Is My Lonely Room

(I sit here and look at you, lonely room it's sad for lovers change their ways
Just like me you miss the love we once knew she's left me in the world of blue
Lonely room of too many mem'ries lonely room reminds me that she's gone
Blue is my lonely room

[guitar]

Lonely room of too many mem'ries...

It's hard to believe that she's really gone I'm hoping and dreaming too
It seems such a shame that she's gone from me cause my love for her is still true
Lonely room of too many mem'ries...)
