

# Bobby Bare, For A While We Helped Each Other

Remember when I saw you standing slightly cryin' empty-handed  
With no one that you could call your own  
Looking up to someone somewhere asking for life with no despair  
Begging for the world to leave you alone  
Yes I shouldn't have butted in but you looked as if you could use a friend  
And I'd lost one myself and was looking about  
Remember it was kinda crazy I held my hand out you took it baby  
For a while we helped each other out

Remember how I dried every tear that you cried  
And gave you love to trust beyond a doubt  
And whenever I was down you made me laugh brought me around  
Yeah for a while we helped each other out

And early one day in the morning sun that time came we knew would come  
And in our hearts well there was love no more  
I guess we're just two of that kind that look for life but never find  
The love in mind that we were looking for  
But I always have the warm spot for you cause at one time I adored you  
And if I pass this way again I'll shout  
May be years 'fore I come through but when I do I'll call on you  
Cause at one time we helped each other out  
At one time we helped each other out
