

Bobby Bare, In The Misty Moonlight

[Both]

In the misty moonlight by the flickering firelight

[Skeeter]

Any place is all right long as I'm with you

[Both]

In a faraway land on the tropic sea sand

[Bobby]

If your hand's in my hand I won't be blue

[Both]

Way up on the mountain a way down in the valley

I know I'll be happy anyplace anywhere I don't care

In the misty moonlight by the flickering firelight

Any place is all right long as you are there

[Skeeter]

You know I could be happy in just one little room with only a table and a chair

As happy as I'd be in a kingdom by the sea darling if you're there

[Bobby]

And I could be rich or I could be poor but if you were by my side

I could be anyplace in the whole wide world and I know that I'll be satisfied

[Both]

Way up on the mountain...

Any place is all right long as you are there
