

Bobby Brown, That's The Way Love Is

You are so special to me
It's got me going crazy
You don't know how i feel about you
It makes me do the things that i do girl

PRE-CHORUS:

That's the way i feel
It makes me feel so good inside
That's the way love is

CHORUS

It can make you laugh
It can make you cry
Feels so good inside
That's the way love is
It can make you change
There's no one to blame
Makes ya go insane
That's the way love is

You gave me love, you gave me joy
you were there through the thick and thin
I don't know what i'll do without you
You've been there for me, and i'll be there for you

(pre Chorus)
(Chorus 2x)

(Stylz)

rap:

That's the way it is
Baby im a perfect match to attach
That's the way you work it
One hand washing the other and your not
Watching another man and he's not watching
Some other woman. No need to let the tough
Times leave a frown. Erase your blue face now
Baby you're with the Brown. He's here
To take care of you like a doctor. Don't
Sweat nothing Bob she got ya, that's the way
Love is.
