Bobby Caldwell, Back To You

I was a fool to be
Thinking just of me
And I thought my self we're
better off this way
And I thought that leaving you
Was the thing to do
And I've regretted each
and every single day

Darlin' we had a lot to learn
But our heart's returned
And nothing's in our way

Back to you
I'm goin' back to you
No I didn't know what love was
But darlin' now I do
And I know it might sound crazy
But I've changed my point of view
Guess I always knew I'd find my way
Back to you

I put our love behind
Cause I made up my mind
That I'd find a way to spend
those lonely nights
And I thought our love was gone
But you proved me wrong, baby
From the moment you came
back into my life

Darlin' we had a lot to learn
But our heart's returned
And nothing's in our way

Back to you
I'm goin' back to you
No I didn't know what love was
But darlin' now I do
And my life has been so crazy
Just because of missing you
Living alone was hard to do
Now that I'm in your arms again
Make it forever more

Back to you
I'm goin' back to you
No I didn't know what love was
But darlin' now I do
And I know it might sound crazy
But I changed my point of view
Guess I always knew I find my way
Back to you
