

Bobby Caldwell, Love Won't Wait

When the lights are low
How can you resist
When I kiss your ear
I would like to know
If you've always felt
The way I'm feeling dear
There's just one chance
For you and I
Let's make romance
Don't let love slip by
You will regret
When the lights are low
How can you pretend
That you just don't care
Darling can't you see
There is love for me
In your heart somewhere
Don't let love
Slip through your hands
Oh sweet darling
Don't spoil my plans
Please don't hesitate
' Cause my love can't wait for you
Now love won't wait
Don't you hesitate
How can you resist a tender kiss
I love you
Darling love won't wait
Don't you hesitate
In my love you'll find
There is a happiness for you
