

Bobby Pulido, For Keeps

There comes a time
When the time is right
When you meet someone
And the feeling's right
When you say I do
And I'll always love you

As you came along
One lonely night
And we crossed paths
And the time was right
And we opened our hearts
And it was love at first sight

Well I don't know if I made myself clear
But I want you tonight
For the rest of my life
For keeps

I can recall some very hard times
When you had your doubts
And I had mine
And there was nothing that seemed to go right
We opened our eyes
And saw a light
That was shining above
And oh so bright
And once again
In our hearts
It was love at first sight

Well I don't know if I made myself clear
But I want you tonight
For the rest of my life
For keeps

Well I don't know if I made myself clear
But I want you tonight
For the rest of my life
'Cause you've made my dreams come true
And I love you
I want you tonight
For the rest of my life
For keeps
