

Bobby Tinsley, You Moved On

The day that we met, is the day that you moved on

I fall down on my knees everynight
And for you baby
That your heart never again feel cold
Not from me baby
Cause I live everyday to only love you more
And to let you know your the only girl that I adore

(Chorus)
So hear me
So sleep don't cry I will never say goodbye
When the rain falls down girl
I'll keep you dry
Feel my love is so strong
I wrote you this song
Your past is gone
Cause the day that you met me you moved on
You moved on

My world did not feel the same without you
My world would not feel the same
I don't know what I would do
Like a star shining in the darkest of night
Your my bright spot baby
Cause I live everyday to only love you more
And to let you know your the only girl that I adore

(Chorus)
So hear me
So sleep don't cry I will never say goodbye

When the rain falls down girl
I'll keep you dry
Feel my love is so strong
I wrote you this song
Your past is gone
Cause the day that you met me you moved on

I know that you might of been mad before
Thats why everyday i'm bouta love you more
Everyday, so you'll know that love can be for sure
And day after day, i'll still be in love with you

Don't speak don't cry I will never say goodbye
When the rain falls down girl
I'll keep you dry
Feel my love is so strong
That I wrote you this song
Your past is gone
Cause the day that you met me you moved on

(Chorus)
Don't sleep don't cry I will never say goodbye
When the rain falls down girl
I'll keep you dry
Feel my love is so strong
I wrote you this song
Your past is gone
Cause the day that you met me you moved on
You moved on

Cause the day that you met me you moved on
