

Bobby Valentino, Slow Down

I saw you walking
Down on Melrose
You looked like an angel
Straight out of heaven, girl
I was blown away by
Your sexiness
All I have to do is catch up to you

[Hook:]
Slow down I just wanna get to know you
But don't turn around
Cuz that pretty round thing looks good to me
Slow down never seen anything so lovely
Now turn around
And bless me with your beauty, cutie

A butterfly tattoo
Right above your navel
Your belly button's pierced too just like I like it girl
Come take a walk with me
You'll be impressed by
The game that I kick to you
It's over and for reeaal

[Bridge:]
Like a flower fully bloomed in the summertime, you're ready
To be watered by this conversation, you're ready
I'm in awe cause you shine like the sun
Let me be the one to enjoy you
Let's kick it girl

[Hook x2]

Oh baby you know by now that I want you bad
I'm floating on thin air I can't come down
Cupid hit me already damn
Now I can't leave till seven digits are in my hand, my hand

[Bridge]

[Hook x2]

Slow down never seen anything so lovely
Cutie

[Hook]
