

# Bodyjar, Halfway Around The World

Like I pictured in my mind  
All the fun that I can find  
Faraway from all that history  
Even only for a while, I'm waiting  
But I know that I survived  
When you told the truth but lied  
Kept it only when you get me down  
Putting why's in front of How's  
I'm waiting so faraway

Halfway around the world  
Close my eyes  
Hope everything will work out

How can you be so sure  
That your right  
Your confidence will burnout  
(bright)

Am I taking all your time  
Run it over in my mind  
Kept it goin when it gets me down  
Now its only for a while, I'm waiting  
Still I know that I survived  
When you told the truth you lied  
honest only when it gets me down  
putting lies in front of lives  
your waiting so faraway
