

Bodyjar, Washed Away

Stripped from life as it seems
Was washed away until another day
Words are left inside this memory
And that will always stay
I'll never need a friend to tell me
'Cause they'll never know

Just how it feels to love and loose a friend I can't let go
The years I knew you meant a lifetime to me
You'll always be this way washed away
Your life was washed away

A good time not a long time
I know you said that to me
I hoped that you'd be waiting for me
When my time comes, we'll see
Time won't mend, I felt the weight of you my friend
But I won't dissolve the memory when my time comes we'll see
Need a friend to say Need a friend to say
