

# Bodyjar, Ypurnot The Same

Think of all the things I do,  
And I still hold the thought of you,  
With someone else, I know it's true,  
So far away...

And I can only hold my breath,  
And start to die a lonely death,  
With you and me and all the rest so,  
Far away...

Don't say I told you so,  
One thing you'll never know,

You're not the same,  
You've changed,  
I don't need you anyway,  
You're not the person,  
That I believed in yesterday,

You're not the same,  
You've changed,  
I don't need you anyway,  
You're not the person,  
That I believed in yesterday...

I can't hold it back you see,  
I know it all comes back to me,  
You must have practiced hard to be so,  
Far away...

Never wanted me to show,  
Just write me off I'll let you go,  
And now there's more for you to know so,  
Faraway...

Don't say I told you so,  
One thing you'll never know,

You're not the same,  
You've changed,  
I don't need you anyway,  
You're not the person,  
That I believed in yesterday,

You're not the same,  
You've changed,  
Something's missing anyway,  
You're not the person,  
That I believed in yesterday,  
That I believed in yesterday,

Don't say I told you so,  
One thing you'll never know,

You're not the same,  
You've changed,  
I don't need you anyway,  
You're not the person,  
That I believed in yesterday.
