

Bon Jovi, Deep Cuts The Night

I've been waitin' for this scene to end
I don't need somebody baby, I need a friend
I work all day just like doin' time
I've stood tall through the fires of hell
And I've walked through enemy lines.

So now you've gone and built a wall around you
Its gonna take a heart to knock it down too.
Deep cuts the night, when you're without love
Deep cuts the night, when you're without love
Deep cuts the night, and it's bringing me down, its bringing me down

If I could be the hero in your masquerade,
I could sweep you off your feet and take you far away.
There ain't no saviors in the real world,
There's only broken hearts and souls for you and me girl.

Now you've gone and built a wall around you
It's gonna take a heart to knock it down too.
Deep cuts the night, when you're without love
Deep cuts the night, when you're without love
Deep cuts the night, when you're without love
Deep cuts the night, well its bringing me down

So load your guns and fire away,
All it takes is one fair shot to blow your world away.

Deep cuts the night, when you're without love
Deep cuts the night, when you're without love
Deep cuts the night, and it's bringin' me down, it's bringin' me down
