Hello again, it's you and me Kinda always like it used to be Sippin' wine, killing time Trying to solve life's mysteries How's your life, it's been awhile? God it's good to see you smile I see you reaching for your keys Looking for a reason not to leave If you don't know if you should stay If you dont say whats on your mind Baby just breathe there's nowhere else tonight we should be You want to make a memory I took up this old fotograph look at all that hair we have its bitter sweet to hear you laugh the Phone was ringing and I dont wanna ask If you dont know, Ill understand if you stay hey I got a plan you wanne make a memory, you wanne steel a piece of time you can sing a melody to me and I can write a couple of lines You wanna make a memory? If you don't know if you should stay and you dont say whats on your mind Baby just breathe there's nowhere else tonight we should be You want to make a memory You wanna steal a piece of time? You can sing the melody to me And I can write a couple lines
