

# Bone Crusher, Hate Ourselves

Listen let that music hit you for about 5 seconds  
There are thingz in life  
We of people need to get, need to get our weight up  
Together the struggle starts today people  
Listen here we go

In life sometimes things aint what they seem  
Some say they love you don't mean a damn thing  
Sometimes it makes me wonder why  
This pain it hurts me deep inside  
Cuz all I wanna do is give love  
But all day wowdees mean mug  
So it brings the thug in me  
And all I want is my family wit me  
To share in this love of life  
For my lil shorties to eat right  
It's the short life that we live  
And theres a lot that you can give  
Get up yo weight people

Tell em Tell em  
Why we hate ourselves sooo  
Please let me kno  
Why we hate ourselves soo  
Guess that's how goes

The wars the battles the tussles the struggles  
From nobody to a legend  
Give in here  
I command your attention  
As if I was a band, you the people in the stand understand  
I keep my lyrics slum and rigid  
Young prospects watch, my feet don't miss my pivot  
Don't matter my year, my gives stay consistent  
I went from born to blazed  
To beautiful days and beautiful ways  
Laying down the truth for a bankhead, respect it  
I try to interject it, I say through the music and the medic  
Im dedicated to my pen and my pistol  
My family and my hood I wish you nothing but good

Tell em Tell em  
Why we hate ourselves sooo  
Please let me kno  
Why we hate ourselves soo  
Guess that's how goes  
We don't love ourselves, cuz we hate who we see off in the mirror  
A people that don lied to us  
In the quipped to 24 7  
Show us in the good book, if we go off to heaven, reverend  
We swerving in our innocence  
Taking off in yo G 44 tell the truth about my ken 44  
Po Po scared my up honey, and gave her a stroke  
Jammed her up wit coke, strung out on soaps  
Just litsten a beat, aint no love in these streets  
And it's a shame what a n\*gga gotta do to feed his family  
Trappin, scrappin, head stung  
I made my mistakes in the past, but I was young and dumb  
Learn from the thug, learn from the bars, learn from the ghetto, learn from the slum  
I forget bout the struggle, I cant get by without the help from my sister and my brothers

Tell em Tell em  
Why we hate ourselves sooo  
Please let me kno

Why we hate ourselves soo  
Guess that's how goes

Never say never, Im clever  
Cutter butter brother  
Shut her mother\*\*\*\*\* lips wit my clip  
Take a trip, take you way up in yo whip  
A legendary, underestimated, underrated, hated by the critics  
But I spit it, make em git it  
Kick it when I hit yo city,  
Hook me up with the best greens they serve  
I took a bird in the red eye  
Im workin till Im dead eye  
The misson never ends  
Im up for them lazy a\*\*  
Mo gon clap dough, silly from they growth  
True n\*\*\*\*\* they kno, stay together till its over  
Staring out the window of my old home,  
We older  
Im never sober  
Im never sober

Tell em Tell em  
Why we hate ourselves sooo  
Please let me kno  
Why we hate ourselves soo  
Guess that's how goes
