

Bonfire, Anytime You Cry

I was lookin' for answers
deep down inside
The closest that I've got
was a desperate sigh

Words don't prove nothing
but kisses don't lie
Every single breath I take - tells me why

I didn't mean to want you so bad
I didn't mean to care so much
The way I care and want you
now is dangerous - dangerous

Anytime you cry
I feel down down down down
Anytime you smile - I feel high
Anytime we kiss
I feel love love love love
Anytime we touch - I could fly - anytime

I was counting seconds
'til you came home from work
Anyhow my heart was on alert
red alert

It didn't make me feel better
when I tried to shake it off
I was afraid to believe
this could be love

I didn't mean to miss you so bad
I didn't mean to need you so much
The way I need and miss you
now is dangerous so dangerous

Anytime you cry
I feel down down down down
Anytime you smile - I feel high
Anytime we kiss I feel love love love love
Anytime we touch - I could fly - anytime

Anytime you smile - Anytime you cry
Anytime you smile I feel high
